#11 Rebar. In the United States, reinforcing bar or “rebar” is graded according to its physical characteristics. The higher the grade, the wider and heavier the rebar is. #11 rebar is among the widest and heaviest of the available standard grades, and is thus well-suited for use in heavy-duty and demanding construction projects.. Rebar is primarily used to reinforce concrete, a task it is ...

Positive Reinforcement. A positive reinforcer is any action by the teacher that encourages the student to behave in the desired way. Reduced to its most basic form, positive reinforcement (reward) theory states that when a student performs some act, such as giving a correct answer to a teacher's question, and he/she is rewarded for it by the teacher, he/she is more likely to repeat the act ...
