Re: Install Alpine CHA-S634 in 2002 330Ci? maby. The CHAS634 will work with a non-DSP factory headunit, but file hierarchy must be kept simple for mp3's. Only single tracks can be burned, no file folders will be read. This is a great option over the too expensive factory changer.

i was having the same with alpine. i used to drag and drop all my mp3 files and make mp3 cd. it would skip like hell. then, i started making folder and then burn it; it was playing fine. suppose you have 100 songs. so, you need about 5 folders which means about 20 songs per folder. try it.
