## **API Standard 663**

API receives numerous inquiries related to its standards, specifications, recommended practices, technical reports and codes (i.e. documents). While we can provide answers to many of these questions, there are certain categories of queries to

which API cannot provide assistance. We use the terms “General and Technical Questions,” and “Requests for Interpretation” to describe the ...

## **Standards Requests for Interpretation - API**

Before API 682, API 610 (the pump standard) used a simple seal code to specify seals. API 682 attempted to use a more comprehensive seal code; however, that code changed with every edition of API 682. The 4th Edition code, described in Annex D, is probably the best to date and includes some concepts and codes from the historical API 610 seal code.
