## **Apollo 13**

Apollo 13 was the seventh crewed mission in the Apollo space program and the third meant to land on the Moon. The craft was launched from Kennedy Space Center on April 11, 1970, but the lunar landing was aborted after an oxygen tank in the service module (SM) failed two days into the mission. The crew instead looped around the Moon, and returned safely to Earth on April 17.

## **Apollo 13 - Wikipedia**

Directed by Ron Howard. With Tom Hanks, Bill Paxton, Kevin Bacon, Gary Sinise. NASA must devise a strategy to return Apollo 13 to Earth safely after the spacecraft undergoes massive internal damage putting the lives of the three astronauts on board in jeopardy.

Apollo 13 is my favorite movie of all time, so I had to get this when we got a 4K TV. However, be aware that as this is film-based source material, you get a LOT of film grain. Not really sure it is a big improvement over the Anniversary Blu-ray edition we already had, but does have better dynamic range (it is HDR even though the product image ...
