Backup Exec 15 Symantec - isaexpocampinas.org.br

When attempting to add the server in Backup Exec the operation cannot be completed. I have tried using DNS, IP and the FQDN of the server. Each time it fails with the same message. I am able to ping the server by IP and DNS. The Ubuntu server didn't have a firewall running but it did have IP tables. I added the port 10000 to this.
