Bacteremia is the presence of bacteria in the bloodstream. It can occur spontaneously, during certain tissue infections, with use of indwelling genitourinary or IV catheters, or after dental, gastrointestinal, genitourinary, wound-care, or other procedures.

Bacteremia - Infectious Diseases - Merck Manuals ...

PHS Policy mandates that institutions use the Guide for the Care and Use of Laboratory Animals as a basis for developing and implementing a program for activities involving animals. The Guide states that it "...applies to agricultural animals used in biomedical research, including those maintained in typical farm settings."

Frequently Asked Questions | OLAW

The New Mexico Institute of Mining and Technology, commonly known as New Mexico Tech, is devoted to excellence in education and research. At Tech there is no artificial distinction between pure and applied research and no sharp dividing line between teaching and research. Students are challenged to learn, to think in the abstract, and to bring abstractions to bear on practical situations.
