This uneasy joining of human soul and silvan shape will replace forever the delicate link between body and soul that is the human self. Having discovered in Virgil's Polydorus the possibility of an alle-gory of moral entrapment within the body (i.e., within the material world), Dante goes on to explore the contrary issue of the soul's immortality.

body became the path to the soul. A stronger body was less likely to submit to the devil's temptations and thus better protected the soul from the devil's domination. The body was supposed to protect the soul, but more often than not it failed. Clergy and laity alike knew all too well that the body's lustful desires frequently overwhelmed the will, which resided in the soul.

To keep body and soul together, they tell love stories. This is the premise of Giovanni Boccaccio's Decameron (1353): ten nights, one hundred stories of erotic, tragic, and farcical amore—all to while away the long hours of quarantine during the outbreak of plague in Europe, which began in 1347 and lasted several years.
