Communication In Accounting Education

Accounting, often described as "the language of business", requires a diverse set of written, listening and oral communication skills if those who practise it are to be effective. Given the pace of change relating to, for example, the evolution of international accounting standards and the demands for greater transparency, accountants must be clear, responsive, and audience-focussed communicators.

Amazon.com: Communication in Accounting Education ...

Communication skills are valued highly in public accounting firms, where profes sionals at all levels communicate as part of their jobs. However, respondents to a 1997 survey reported that the development of effective communication skills was not part of formal accounting education and that partners and managers want their entry-level professionals to have these skills at the onset.
