Then, in Das Kapital, he dramatically extrapolated the process of concentration of capital to describe the "historical tendency of accumulation" leading to the expropriation of many entrepreneurs by ever fewer "magnates of capitalism." Even when, for the sake of argument, he assumed perfect competition, he did it only in order to prove that that competition was necessarily self-destructive.

Capital: Critique of Political Economy: Book by Karl Marx Karl Marx was the first person to point out the two fold nature of labour which is incorporated in commodities. According to Karl Marx, there are variations in commodities and their values , so does their labour, different kinds of labour produce different kinds of commodities which are different from each other , hence Marx termed this as division of labour.

Das Kapital by Karl Marx - Summary and Analysis

Commodities are objects that satisfy human needs and wants. Commodities are the fundamental units of capitalism, a form of economy based on the intense accumulation of such objects. The basic criterion for assessing a commodity's value is its essential usefulness, what it does in the way of satisfying need and wants.
