Course Description: PSYC 140 studies human growth and development across the lifespan. From conception to death, physical, cognitive, and socioemotional development is examined. Key developmental theorists and theories are integrated throughout the course as well as developmental milestones across the lifespan.

PSYC 140 Developmental (Lifespan) Psychology 3 credits

Developmental psychology is the branch of psychology that focuses on how people grow and change over the course of a lifetime. Those who specialize in this field are not just concerned with the physical changes that occur as people grow; they also look at the social, emotional, and cognitive development that occurs throughout life.
