Class Description: This one-day (eight-hour) course focuses on the practical application of forensic science ethics codes to ethical dilemmas encountered in forensic science. It also offers insight into the enforcement and background of ethics codes.

## **Ethics in Forensic Science | State of California ...**

One reason why ethics is so important in the field of forensic science is because the results yielded by physical evidence discovered at a crime scene have a great impact on the lives of others (Barnett, 2001). When evidence is mishandled, manipulated, or misinterpreted the outcome of the case is altered (Ayres, 1994).

## **Ethics and Training in Forensic Science**

Most practitioners in forensic science and forensic medicine are committed, hard-working, ethical professionals; however, education and guidance on professional responsibility is uneven and there is no enforceable universal code of professional responsibility. In addition, when an adverse event
