Five Winds Asset Management

Five Winds Asset Management is a typical pyramid scheme. Which means that when new investors come into the company they receive money from older depositors. Once they think how wonderfully the system works they deposit more and more money. But this money is again used for newcomers to make them again think how great everything is.

Five Winds Asset Management Review - a Scam Test

Five Winds Asset Management company is a new player in the European and global markets in the field of investment and consulting, as the company claims on its website. However, it is not clear where the company is located and which kind of investment and trading they do offer, but promise a very high return while targeting clients from various jurisdictions, as well as concentrate on Russian region.
