Global Is Local and Local Is Global Virtually all aspects of environmental stories are local. Climate change, water, food, pollution, sustainable development, biodiversity, etc. have local angles. But these stories are also unfailingly global—a local environmental issue is almost certainly replicated in many other places around the world.

Global Is Local, Local Is Global: Tips on Covering the ...

The relation between local and global truncation errors is slightly different from in the simpler setting of one-step methods. For linear multistep methods, an additional concept called zero-stability is needed to explain the relation between local and global truncation errors. Linear multistep methods that satisfy the condition of zero ...
