C | Snake Game in C Code Example

Lately I've been writing a game engine in C++. I'm using it to make a little mobile game called Hop Out. Here's a clip captured from my iPhone 6. (Unmute for sound!) Hop Out is the kind of game I want to play: Retro arcade gameplay with a 3D cartoon look. The goal is to change the color of every pad, like in Q*Bert.

How to Write Your Own C++ Game Engine

First, come up with an idea for a game. Once you have a simple idea, expand on it. For example, if it is a board game, what is the objective/How do you win? What will the rules be like? etc. If your game will have characters or a story, create them. Make sure you have a pretty well-defined concept of what your game will be when it's finished.
