Global information and world communication (edition ...

One of the most common forms of global communication is an email. A person in one country types a message and clicks the send button. The message is then encoded into packets which are sent across the internet to the recipient. In another country, the receiver logs in and decodes the message by opening the email, and retrieves the message.

A Definition of Global Communication | Bizfluent

The global communication and information space should serve the exercise of freedom of expression and opinion and respect the principles of pluralism, freedom, dignity, tolerance and the ideal of reason and understanding. Knowledge is necessary for human beings to develop their biological, psychological, social, political and economic capacities.
