Infection Prevention and Control Best Practices for Small ...

If possible, a healthy friend or family member from outside their household should bring the animal to the veterinary clinic. The clinic should use all appropriate precautions to minimize contact with the person bringing the animal to the clinic. If there is an emergency with the animal, the animal should not be denied care.

Guidance for Veterinarians | CDC

Specific to opening a veterinary clinic, it's important to establish an identity with your business plan. Identify what types of pets you'll see, whether or not you'll specialize in a particular area, and if you'll be open for emergencies.
