Hatch and Lazaraton's Research Manual is a very useful and needed resource that will benefit students as well as professionals in applied linguistics. In many ways this book represents an improvement over Hatch and Farhady's Research Design and Statistics for Applied Linguistics. Indeed, many sections of the present work appear to have been taken almost verbatim from Hatch and Farhady.

Review of Hatch and Lazaraton

His user-tailored suggestions on the mentioned notions contribute to the realization of research validity and reliability. With regard to statistical inference, the author addresses cluster analysis, meta-analysis, and structural equation modelling, which are for instance not discussed in Hatch and Farhady . This indicates that new energy is ...
