High technology, space, and society (Book, 1985) [WorldCat ...

Technology and human life cannot be separated; society has a cyclical co-dependence on technology. We use technology; depend on technology in our daily life and our needs and demands for technology keep on rising. Humans use technology to travel, to communicate, to learn, to do business and to live in comfort. However, technology has also caused us concerns.

Technology And Society - Impact of Technology On Society

The dramatic restructuring of space and time in recent decades, associated with new high-speed geographies of production, exchange, and consumption, has been theorized against the backdrop of a 'shrinking world'. The popular conception of the world shrinking to a global village is generally seen as the product of technological advances in telecommunications, transportation, and 'information'.

The Incredible Shrinking World? Technology and the ...

To millions of people, space exploration is a waste of time and money. Earlier this month, when Elon Musk's company SpaceX launched a Tesla Roadster into orbit, the general public seemed divided; half were giddy at the display of technology and innovation, and the other half were disgusted that the \$90 million effort wasn't instead used for issues on Earth.
