## **Microeconomics - Study Guide: Hubbard, Glenn ...**

- A central problem in Microeconomics is the determination of equilibrium price and quantity in individual markets and industry. In Macroeconomics, however, the central problem is the determination of national output, income and employment. In spite of these crucial differences, the two fields of study are inseparably related.

## **Macroeconomics - Pearson**

Here, I will present solve problems typical of those offered in a mathematical economics or advanced microeconomics course. The problems were originally compiled by Dr. Charles N. Steele and are reprinted with his generous permission. The solutions to the problems are my own work and not necessarily the only way to solve the problems.
