Incomplete Acquisition in Bilingualism: Re-examining the Age Factor (Studies in Bilingualism, Volume 39) Silvina A. Montrul. Age effects have played a particularly prominent role in some theoretical perspectives on second language acquisition. This book takes an entirely new perspective on this issue by re-examining these theories in light of the existence of apparently similar non-native outcomes in adult heritage speakers who, unlike adult second language learners, acquired two or more ...

Results lead to the conclusion that the Spanish competence of the bilinguals from Germany is still incomplete, and influenced by transfer of the majority language (German). Only bilingual children living in Germany show influence of the majority language onto the heritage language, whereas transfer does not operate on the Spanish competence of the bilingual children from Spain.
