Information Technology Solutions - Clinisys

CliniSys and MIPS - our two component companies of the CliniSys Group - operate directly from development, support and business operations centres strategically located throughout Europe. We operate at the forefront of IT, melding the perfect combination of people and technology to deliver solutions in a wide range of laboratory disciplines. At the heart of our solutions are two proven, successful and highly regarded LIS applications:

Solutions - Clinisys Group

Information Technology Solutions. Transforming Pathology Requesting. The project to select and deploy an electronic requesting and results reporting solution was initiated in July 2007. Following a competitive tendering process where four system suppliers were investigated and system demonstrations and presentations were carried out, the winner, CliniSys with CyberLab, was selected.
