International Business Strategies in a Globalizing World. Globalization continues to influence world economies, as reduced tariffs, enhanced communications, and increased capital mobility have allowed companies to connect to global financial markets and expand their businesses internationally. However, successful expansion into new foreign markets demands that companies adopt international business strategies that best fit their needs and capabilities.

It is meant as a no frills guide for the courses of International (Strategic) Management. These courses are often an introduction to the issues of international management that would be studied in detail in other more focused courses of a degree programme in International Business Studies. Consequently, they give an overview of the issues and problems facing a firm that operates in markets all over the world, be they huge Multinationals or small firms operating in a niche market.
