ISO 9241 - Johner Institute

ISO 9241 is big. If you pile all of the original seventeen parts on top of each other it measures over two inches in thickness. This is about as thick as the hardback versions of Nielsen's Usability Engineering and Shneiderman's Designing the User Interface combined. (And ISO 9241 is softback and printed on A4 paper).

The ISO 9241 usability standard: Introduction

The original definition of usability was embodied in ISO 9241 Part 11 as a combination of effectiveness, efficiency, and satisfaction. The ISO standard was heavily influenced by the European MUSiC project, which was a publicly funded investigation into the systematic collection of summative usability data, both objective and subjective.

MeasuringU: Where Did the ISO 9241 Definition of Usability ...

Part 5 of ISO 9241 deals with the ergonomic guidelines surrounding office tasks that use Visual Display Terminals (VDTs). The guidelines take into consideration user requirements, design factors and the acquisition of workstation equipment. The aims of the document are to ensure optimal work place design and usability at VDT workstations.

ISO 9241 Summary - Ergonomic Solutions

A list of all parts in the ISO 9241 series can be found on the ISO website. Introduction Human-centred design is an approach to interactive systems development that aims to make systems usable and useful by focusing on the users, their needs and requirements, and by applying human factors/ergonomics, and usability knowledge and techniques.
