### J S Bach 2 Volumes

Volume Two is concerned with Bach's choral music — the chorales, cantatas, the Magnificat, the St. Matthew and St. John Passions, the motets, songs, oratorios, and masses. The illuminating analysis of these works, illustrated by hundreds of musical examples, is dominated by Schweitzer's highly original theories regarding Bach's pictorial representation of the text in the music, and the expressive motives Schweitzer has found and identified throughout Bach's compositions.

Volume 1 called J. S Bach a culmination of what could be done with music within the theories that Bach had to play on way back when it had not turned into the music we now expect. I bought a complete collection of Bach organ works when that was considered unusual by the kind of people I worked with.
