Management consulting is the practice of helping organizations to improve their performance. Organizations may draw upon the services of management consultants for a number of reasons, including gaining external advice and access to consultants' specialized expertise. As a result of their exposure to, and relationships with numerous organizations, consulting firms are typically aware of industry "best practices". However, the specific nature of situations under consideration may limit the ability

However, the salary growth in management consulting outpaces many industry positions. Because of that, the net income after a

few years in consulting can exceed those in other industries, despite an initially lower base pay. In top consulting firms, you can typically expect a 10-20% increase in your base pay and/or performance bonuses each year. Additionally, when promoted to the next level (usually every 2-3 years), the increase in your income is substantially larger.
