mark in the box if the item is OK. Put an 'X' in the box if the item is deficient.

## **Electric Forklift: Pre-Operation Inspection**

1) Forklift drivers are required to check the vehicle at the beginning of each shift. 2) If it is found to be unsafe, the matter must be reported immediately to a supervisor or mechanic. The vehicle will be taken out of service until it has been made safe. 3) Attention is given to the proper functioning of tires, horn, lights, battery, controller, brakes, steering mechanism, cooling system, and the lift system for fork lifts (forks, chains, cable, and limit switches).
