## **Olympiads in Informatics**

The International Olympiad in Informatics is an annual competitive programming competition for secondary school students. It is the second largest olympiad, after International Mathematical Olympiad, in terms of number of participating countries. The first IOI was held in 1989 in Pravetz, Bulgaria. The contest consists of two days of computer programming/coding and problem-solving of algorithmic nature. To deal with problems involving very large amounts of data, it is necessary to have not only

The Lithuanian Informatics Olympiad in many aspects follows the International Olympiad in Informatics. At the same time it inherits evaluation problems which have become a topic of discussion in the IOI community as well as in scientific papers in re-cent years (Cormack, 2006, Forišek, 2006; Verhoeff, 2006). One of the main questions
