"Patient Care in Radiography" 9th Edition | Radiologic ...

'If it is an imaging modality using ionising radiation, they make sure the radiation dose to the patient is minimised. From being seen as a technician, they need to be seen as the expert in that area who can really get the most out of the technology and play that important role in patient care, patient management and in a safe way as well.'

Pivotal role in patient care for radiographers

The emergence of consumers as the central decision makers in health care and the trend toward greater patient self-reliance will require a shift in the traditional business model of radiology practices toward a patient-centered model in which radiologists
