Power & Tel stocks over 10,000 cable television and telecommunications products from top manufacturers worldwide ... Power & Tel is unsurpassed in mastering even the fastest-moving supply chain challenges. Our broad spectrum of products and service solutions enable you to attain every opportunity in this rapidly evolving industry.

### **Power & Tel: Products**

Modern telecommunications systems tend to use local dc/dc converters providing fixed-output voltages independent of the power system bus voltage. This constant-power demand results in an increasing input current as the bus voltage falls. A constant-power load that consumes 1 A at 55 V consumes 1.3 A at 40 V.
