Preaching Building Burying Friars Medieval

Preaching, Building, and Burying is an admirable work all around. It is more than a history of architecture in the late Middle Ages. It is an example of how the social and religious life of a key period in medieval civilization can be enlightened and made both palpable and visible by architecture.

Preaching, Building, and Burying: Friars in the Medieval

...

The mendicant orders had a profound impact on urban space. Their focus on the externalization of religion through outdoor preaching meant that initially church spaces for the laity were not essential; as a result, the churches of the friars were

Preaching, Building, and Burying: Friars in the Medieval City
Friars transformed the relationship of the church to laymen by taking religion outside to public and domestic spaces. Mendicant commitment to apostolic poverty bound friars to donors in an exchange of donations in return for intercessory prayers and burial: association with friars was believed to reduce the suffering of purgatory.

Preaching, Building, and Burying: Friars in the Medieval

...

As mendicants became progressively institutionalized and sought legitimacy, friars adopted the architectural structures of monasticism: chapter houses, cloisters, dormitories, and refectories. They also created piazzas for preaching and burying outside their churches.

Of Patuxet. Paula Peters. From a hilltop overlooking the harbor the open ocean stretched across the horizon beyond two long arms of land reaching out, grabbing the Sound from opposite directions. The north arm was the muscle, a bulging peninsula deflecting a lusty sea and northeast wind while southerly, a long narrow sand bar tugged the tamed tide gently into the village of Patuxet protecting ...
