Heathkit Assembly and Operation Manual SB-610 Monitor ...

The SB-610 is a display to monitor "on the air" signals. The manual notes that the unit can be used from 160 to 6 meters without tuning or modification. Its primary purpose is monitoring the transmitted signal pattern; the RF envelope, RF trapezoid, or RTTY cross pattern.

Refurbishing the Heathkit SB-610 and The 610C-2 Makeover - Spring 2012 The Heathkit SB-610 Monitor Scope, although not as popular today as it was 20 years ago, is relatively inexpensive and available through Hamfests and Web-based auction sites. Not only can it check transmitter signal characteristics but also monitor signals from other stations when used in conjunction with a receiver.

SB 610, Glazer. Contractors: licensing and regulation. The Contractors' State License Law provides for the licensure and regulation of contractors by the Contractors' State License Board (board), which is within the Department of Consumer Affairs.

Bill Text - SB-610 Contractors: licensing and regulation.

manual mode. For monitoring or checking any type of amateur transmitter, it is hard to beat the 8B-610 in performance and cost. Whether it is used at the bench in testing equipment or in your shack for on the air checks. you will find it to be a very useful and worthwhile addition to your station. .

KG0MN's Ham Shack

Hi Kelley, It looks likely that the SB-620 will work with your Icom IC-746. The only caveat is that this is a very complex radio and my understanding of it is rather limited at this point. If you don't already have them, you will want to download the Instruction Manual (IM) and also the Service Manual (SM). Sorry that I didn't keep track of ...
