is an ancient discipline devoted to the study of the Earth. Five essential themes of geography: Location, Place, Region, Human-Earth relationships and Movement.

Physical Geography Chapter 1 Flashcards | Quizlet

Maps based on scientific principles had been made since the time of Eratosthenes, in the 3rd century BC, but Ptolemy improved map projections. It is known from a speech by Eumenius that a world map, an orbis pictus, doubtless based on the Geography, was on display in a school in Augustodunum, Gaul in the 3rd century.
