Social media started in 1997 with a site called Six Degrees. Fast forward to the early 2000s and famous sites including Flickr, MySpace and YouTube emerged in 2005 with Facebook, and Twitter the following year, there are now hundreds of millions of users on social media sites. Where the people are, businesses are sure to [...]

### **5 Advantages and Disadvantages Social Media Marketing**

Most of us already know that Facebook is the top social network on the web. It's a thriving beast of a social networking site on the web with about 2 billion monthly active users and more than one billion that log on daily (according to Facebook itself). Statista shows that Facebook Messenger, with tons of cool features, is the second most popular messaging app behind WhatsApp.

### **The Top Social Networking Sites People Are Using**

To only accept people you have worked with or people you know offline as LinkedIn connections is basically defeating the whole purpose of this platform. The same is true for all social networks.

### **How to Use Social Media for Networking the Right Way | Inc.com**

Offline Networking Social media is a great tool but it's important to remember that is not all done from behind a desk. That is only one of the fronts in the battle to remain relevant.

### **How to Use Social Networking to Succeed in Business | CIO**

This paper argues that the effects of social media marketing can be understood from the perspective of social network theory. Several research propositions are provided based on this framework. SOCIAL NETWORK THEORY . A social network is a specific kind of network where nodes are social entities (Van den Bulte & Wuyts, 2007).

### **Social Media Marketing Strategy: Theory and Research ...**

The term "social network" has been around since the 1950s, but the meteoric rise of social-networking Web sites like MySpace, Facebook and LinkedIn has turned a dusty sociological phrase into the hottest buzzword of the Internet age.. A social network is a social structure that maps out the relationships between individuals.

### **How Social Networking Works | HowStuffWorks**

Social networking. The main purpose of social networking is to connect with other people. There are other end results that come from those connections on many occasions, such as revenue, for example. Some people argue that social networking came before social media and some others believe that it was the other way around.
