NAME DATE 3-5 Study Guide and Intervention Properties of Logarithms Properties Of Logarithms Since logarithms and exponents have an inverse relationship, they have certain properties that can be used to make them easier to simplify and solve. If b , x , and y are positive real numbers, $b \neq 1$, and p is a real number, then the following statements are true. $\log_b xy = \log_b x + \log_b y$ $\log_b \frac{x}{y} = \log_b x - \log_b y$
