Surround Sound Buyers Guide A speaker package will give you true surround sound, as the speakers will be placed all around you in a 360-degree arrangement. But a full surround sound system will cost more than a soundbar and requires more boxes in your room, including an AV receiver. For many, a soundbar is the best option.

Surround Sound Buyers Guide - 1x1px.me

How does surround sound work? Surround sound systems use two to three speakers in front of you with two to three additional speakers located next to you or in the back of the room. The audio signal is split into multiple channels by the A/V receiver so that different sounds come out of the various speakers. Multi-channel surround sound encircles you rather than having it only come through front speakers.
