Teaching and Learning in the Pandemic - Education Week

Teaching and learning are vital processes in survival as they comprise the very foundations of growth. Both of these methods are necessary in achieving development by seeking to actualize significant changes in behaviors. Equally, they have various styles and theories that guide the education system. They are also essentially interconnected in a way that you have to learn something before you can actually teach it and that the act of teaching can make you learn something.

Difference Between Teaching and Learning | Difference Between

Teaching and learning are important processes that are linked to the acquisition of knowledge, values, traditions, skills, behaviors, etc. These two processes are at the two ends of the knowledge acquisition process. Teaching involves imparting knowledge whereas learning involves acquiring knowledge. This is the main difference between teaching and learning.
