This handbook provides an overview of new methods of community planning within the context of the built environment. It is based on the recognition that local involvement in the planning and management of the environment is the best way to ensure safe, strong and sustainable communities and that this is applicable throughout the world.

Community planning handbook | Participatory Methods

The 5 'Cs' of community planning. Complete, compact, connected, complex, and convivial describes everything that you want a neighborhood to be. HOWARD BLACKSON OCT. 19, 2017. The source of most conflicts and confusion I see occurring when cities update their Community Plans is due to the confusion over the scale and size difference of a 'Community' versus a 'Neighborhood' unit.
