...

The Meta Model is often talked about as a linguistic model as we focus on the words people use, how they structure those words into phrases, and what that tells us about their thought processes (or map of the world). However if you think about the Meta Model just a linguistic tool you are missing the power of it.

the meta model demystified. For a long time I have been concerned that there is a problem in NLP.... The Meta Model, the most powerful pattern that NLP has developed is poorly taught, poorly understood and poorly used. Which is such a shame, as the Meta Model is the most powerful pattern in NLP. With it you can become a master communicator and your ability and understanding the rest of the model of NLP will grow exponentially.
