Colin Wilson is very skilled at writing intellectual thrillers and this is no exception. It's his riff on a Lovecraftian tale and involves vampiric mind parasites that have been draining the intellectual vitality of humanity for ages. The Mind Parasites by Colin Wilson is a beautiful and powerful example of someone giving themselves creative license to express an aspect of our experience that—because it operates in the shadows of the psyche—usually goes unrecognized and easily becomes marginalized. This is William S. Burroughs' review (Maynard & Miles C231) of a book by Colin Wilson called The Mind Parasites. It was published in the June 19, 1969 issue of Rat, a New York underground newspaper. The copyediting was very sloppy — the paper even misspelled Burroughs' last name as "Borrhoughs" — so RealityStudio took the liberty of correcting several obvious solecisms, such as "it's" for "its."

"Mind Parasites" is a strange and often disappointing science-fiction novel, especially considering author Colin Wilson's intellectual pedigree. Wilson is best-remembered for writing such challenging and insightful existentialist non-fiction as "The Outsider" and for a series of provocative non-fiction histories of true crime and the occult.

In the preface to *The Mind Parasites*, Wilson concedes that Lovecraft, "far more than Hemingway or Faulkner, or even Kafka, is a symbol of the outsider-artist in the 20th century" and asks: "what would have happened if Lovecraft had possessed a private income—enough, say, to allow him to spend his winters in Italy and his summers in Greece or Switzerland?"
