The first section of The Oxford Companion to the Year is a day-by-day survey of the calendar year, revealing the history, literature, legend, and lore associated with each season, month, and day.

The second part provides a broader study of time-reckoning: historical and modern calendars, religious and civil, are explained, with handy tables for the conversion of dates between various systems and a helpful index to facilitate speedy reference.

Now, in The Oxford Companion to Philosophy, readers have the most authoritative and engaging one-volume reference work on phi. Philosophy can be intriguing--and at times baffling. It deals with the central problems of the human condition--with important questions of free will, morality, life after death, the limits of logic and reason--though often in rather esoteric terms.
