The Story Of Life A

The Story of Life (Frances Lincoln, £12.99) by Catherine Barr, Steve Williams and Amy Husband is a simple, well-illustrated account of evolution. "The book touches on very complex subjects, like the development of life from the first cells and man's evolution, but does so in a way that makes it understandable for those coming to these concepts for the first time."

Reading Aharon Appelfeld's The Story of a Life gives the reader a the strange sensation that what is happening is both too real and hard to believe. This is not to say that what he writes about did not happen. It just strains the reader's ability to believe that human beings can sink to such levels of depravity (and they can, we know this to be so).

The Story of a Life: A Memoir: Appelfeld, Aharon ...

In The Story of Life, Carroll has chosen to chronicle both the triumph and tragedy that has accompanied our pursuit of the answers to life's most important questions. The Story of Life can be read and enjoyed by anyone, including lay people, teachers, and even scientists themselves, but perhaps by a combination of coincidence and design, Carroll has chosen stories that align fantastically with any general biology curriculum.
