Atonal Music: Definition, Schoenberg & Examples - Video ...

Atonality in its broadest sense is music that lacks a tonal center, or key. Atonality, in this sense, usually describes compositions written from about 1908 to the present day, where a hierarchy of pitches focusing on a single, central tone is not used, and the notes of the chromatic scale function independently of one another. More narrowly, the term atonality describes music that does not conform to the system of tonal hierarchies that characterized classical European music between the sevente

Forte is well known for his book The Structure of Atonal Music (1973), which traces many of its roots to an article of a decade earlier: "A Theory of Set-Complexes for Music" (1964). In these works, he "applied set-theoretic principles to the analysis of unordered collections of pitch classes, called pitch-class sets (pc sets). [...] The basic goal of Forte's theory was to define the various relationships that existed among the relevant sets of a work, so that contextual coherence could be ...

In music, serialism is a method of composition using series of pitches, rhythms, dynamics, timbres or other musical elements. Serialism began primarily with Arnold Schoenberg's twelve-tone technique, though some of his contemporaries were also working to establish serialism as a form of post-tonal thinking. Twelve-tone technique orders the twelve notes of the chromatic scale, forming a row or ...
