One might now take Kant's transcendental turn simply as a move within this framework -- a move denying spatiotemporality to any objects in general (regarded as existing in cognition-independent forms) and restricting it to objects as they appear. However, it is preferable to read this turn as a deflationary move rejecting the traditional framework altogether and adopting a new, nonmetaphysical view.

...Kant called this the "transcendental method," but more often the "critical method." His purpose was to reject the dogmatic assumptions of the rationalist school, and his wish was to return to the semiskeptical position with which Descartes had begun before his dogmatic pretensions to certainty took hold.

Transcendental method | Britannica

In philosophy, transcendence conveys the basic ground concept from the word's literal meaning, of climbing or going beyond, albeit with varying connotations in its different historical and cultural stages. It includes philosophies, systems, and approaches that describe the fundamental structures of being, not as an ontology, but as the framework of emergence and validation of knowledge of being. "Transcendental" is a word derived from the scholastic, designating the extra-categorical attributes
