In the Dial-up Connection screen, enter your User name and Password. Your ISP should have supplied your User name and Password to you. The Save Password option remembers your Password so you won't have to enter it every time you initiate your dial-up connection. The characters in the Dial text field are the VPI/VCI values. The VPI/VCI values will automatically display and you should not need to change them unless instructed to do so by your ISP.
