Core Standard Conditions of Contract have been produced in conjunction with Clarkslegal LLP.

Standard Form of Waste Management Agreement

An "output" specification would not prescribe how the contractor is to achieve performance standards set out in the specification. The contractor would be expected to come up with his own proposals for how to achieve those standards. The logic behind the use of "output" specifications is that the client's main concern is not the means by which performance standards are met but the fact that those performance standards are met.
