The Italian Regulatory Authority for Electricity Gas and Water

(L'Autorità per l'energia elettrica il gas ed il Sistema Idrico, AegSI), an autonomous entity created by law, is tasked with defining uniform criteria for the setting of water tariffs. Water tariffs should be set in such a way that they provide incentives for higher investments while keeping water affordable for “vulnerable customers”.

Water supply and sanitation in Italy - Wikipedia

its own water authority. The governance of water services in Europe 7 The sector is financed mainly by revenues from tariffs, which cover operation and maintenance costs entirely, as well as a significant share of investment costs. Some subsidies are granted by national local budgets to complement funding for investments.
